

Together we will grow and learn

An Introduction to Saint John's Church School

Saint John's Church School is situated in Orton Goldhay, Peterborough. Built in 1980 as an open plan school, it has since been partitioned into ten well resourced teaching areas, with a dedicated cooking area and purpose built music room. The school has extensive hard court and grassed play areas and has access to a large sports field adjacent to the school grounds.

The focus of all we do at Saint John's is improving children's learning. Our staff team is dynamic, works together well and wants to continue improving. This is a creative, vibrant learning community where children and staff learn together.

Staff facilities include a purpose built staff non-contact room with conference and study facilities and multimedia capability. The school has a wireless network in place and Broadband technology. All teaching staff at Saint John's have access to a laptop computer to aid their planning and assessment. The school possesses 3 multimedia projectors which allows staff to teach multimedia skills.

We have fabulous ICT and arts facilities including our own small Theatre, Art Studio and ICT Suite.

Saint John's Church School is a voluntary aided church school with close links with its foundation church, Christ Church. The Christian ethos of our school is developing and all staff are expected to support fully this aspect of our school life and practice.

We believe passionately in staff development, believing that we are a community of learners with enquiring minds and a drive to achieve excellence.
